## OVERVIEW

I have a background in public relations and marketing using those skills in commercial real estate supporting property clients such as Asana Partners, Allen Morris and various tenant clients. Through real estate, I saw how neighborhoods were shaped, so I entered Georgia Tech's City and Regional Planning Master's program to help communities advocate for their needs. Combining the technical skills I learned at GA Tech with the ability to craft narrative, I'm ready to achieve that goal. As such, I'm pursuing work in community development, engagement, and planning.
